

Mailbox Product Specifications

Item Number: 5100, 5103, 6200
Item Name: Oasis Locking Mailbox, Oasis Drop Box
Type: Locking Curbside Mailbox, Locking Drop Box

Materials

Body: 16 gage (1.5 mm) galvanized steel sheet
Doors: 14 gage (2.0 mm) galvanized steel sheet
Assembly Hardware: Stainless steel rivets and hinges. Zinc plated assembly screws.
Lock: Zinc plated cam lock with zinc die cast cylinder

Construction

The Oasis Mailbox and Drop Box are assembled exclusively by flat head studs and strategically located spot and lap welds to eliminate unsightly rivets on the outside surface. The doors are assembled using stainless steel spin rivets. Other hardware is assembled with corrosion resistant screws.

Finish

The Oasis Mailbox and Drop Box are finished in a durable powder coat, inside and out. The powder coat is applied before assembly to ensure complete coverage of all parts.

Other Characteristics

- P-Type door seals prevent rain and dust from entering the mail storage compartment.
- All installation hardware and instructions are included.
- Drop Box does not include outgoing mail clip, outgoing mail flag, or "US Mail" embossing on the access door.
- Two sizes available as shown below.
