
Mailbox Product Specifications

Item Number: 5504, 5505, 5506
Item Name: Coronado Curbside Mailbox
Type: Decorative Curbside Mailbox

Materials

Body: 16 gage (1.5 mm) galvanized steel
Door: 14 gage (2.0 mm) galvanized steel
Frame and Knob: Solid die cast brass
Flag: Solid sheet brass
Assembly Hardware: Stainless steel rivets and hinges. Zinc plated assembly screws and nuts.

Construction

The Coronado Mailboxes are assembled using studs and nuts to eliminate unsightly rivets and weld marks. This type of construction also allows for easy part replacement. Other hardware and parts are assembled with corrosion resistant screws.

Finish

The Coronado Mailboxes are finished in a durable powder coat, inside and out, on the body. The powder coat is performed before assembly to ensure complete coverage of all surfaces. The accent pieces are solid brass and finished with either antique nickel (5504) or antique copper (5505), or are polished to a high-luster polished brass finish (5506).

Other Characteristics

- All installation hardware and instructions are included.
